

Printing / Laminating / Mounting / Custom Printed Album Prices

We offer professional grade Fine Art Prints on a wide range of archival rated papers. Fade resistance for these prints are rated in decades.

High gloss papers are similar in finish and texture to high gloss film based papers. The advantage of these papers is their vivid colors. The disadvantage is the highly reflective surface. Some find the reflections from high gloss prints distracting.

Matte and Watercolor papers have soft finishes - some have a very subtle texture. The colors are slightly softer than for higher gloss papers. Many people favor these papers because they can be viewed from any angle with no distracting surface reflections.

Canvas prints have a surface finish similar to that used for canvas oil paintings. The colors are similar to the Matte and Watercolor papers.

We recommend all Fine Art Prints be finished with a clear laquer spray to protect them from ultraviolet rays and air contaminants. This spray has no affect on the final finish of the print. For prints 16x20 inches and larger we also recommend mounting to insure they are flat for viewing and for easier handling. For all specialty prints where handling is of concern, we recommend a surface lamination for added protection.

We have samples for all the above media types and will be pleased to show you the differences.

Custom Printed Albums

Over the past several years, we have developed a technique for producing 'coil bound' printed photo album-books (See the Web Site page "Photo Services/Printing"). The pages are printed on special double sided paper having a satin semi-gloss finish. The album cover has a photo of your choice laminated for protection and durability. The pages and cover are then 'coil' bound into a book so that the pages lie flat when viewing.

Album books can have as many as 30 double-sided pages. Each page is designed separately with images and special effects that emphasize the special nature of the album. Text or any special effects on any page is possible since we control all aspects of the album creation and printing.

Cost of Custom Albums are summarized in the following table.

| Album Page Size | Cost / double sided page | Cover Cost |
|--------------------------------|---------------------------------|-------------------|
| 5x7 inches | \$20.00 | \$40.00 |
| 8x10 inches 8.5 x 11 inches | \$35.00 | \$80.00 |
| 13x19 inches | \$90.00 | \$130.00 |
